

EPISODE 1 — EXTENDED DIALOGUE SCRIPT

Title: "The Signal of Kali"

Scene Setting: Neo-ancient futuristic city. Rain. Towering spires with Sanskrit-like code etched into their surfaces. Night.

Scene 1 - Rooftop Observatory

Characters: Kairon (M), Echo (F AI)

[CAMERA: Wide shot – neon-lit skyline, drone zooms to Kairon standing at the edge of a high-rise observatory.]

Kairon: *(softly)*

“This city sleeps... and yet, the sky above screams louder every night.”

Echo: *(disembodied, calm)*

“Ambient noise levels have increased by 13.2%. Signal origin remains unknown.”

Kairon: *(turns to voice interface)*

“It’s not just noise, Echo. It’s a pattern. Look closer at the last 48-hour loop.”

Echo: *(projecting glyph visuals)*

“Pattern detected. Sanskrit derivative. Alignment matches fragment 33 of the Agni Tantra... unreleased.”

Kairon: *(visibly shaken)*

“But that scroll was... sealed. Buried in the Yagna Vaults.”

Echo:

“Your memory matches the protected version. This data is live — someone is transmitting scripture through code.”

Scene 2 - Memory Archive Chamber

Characters: Kairon (M), Child Kairi (F, memory), Echo (F)

[CAMERA: Slow pan into a white memory archive room. Glowing cubes drift like floating data files.]

Kairon: *(touching a cube)*

“Show me... the day I lost her.”

Echo: *(voice softer)*

“Warning: Accessing trauma-locked memory. Proceed?”

Kairon: *(firmly)*

“Proceed.”

[SFX: Memory shift hum. Flashback begins.]

Child Kairi: *(laughing, running through a field)*

“Papa! The sun looks like it’s dancing today!”

Kairon (younger): *(chuckling)*

“Maybe it’s happy you’re smiling again.”

[Sudden flicker. Sky darkens. Everything freezes mid-motion.]

Kairon (present day): *(voice cracks)*

“I remember this moment... it was right before the pulse hit.”

Echo:

“Confirmed. This is the precise second the Kali Signal embedded into the neural stream.”

Scene 3 - Secret Shrine Below City

Characters: Kairon (M), Vira (F)

[CAMERA: Tracking shot descending deep underground. Vira kneels beside a sacred terminal lined with shifting runes.]

Vira: *(without turning)*

“You heard it, didn’ t you?”

Kairon: *(approaching slowly)*

“The Signal?”

Vira: *(nods)*

“It calls only to the marked. You are not cursed, Kairon... you’ re chosen.”

Kairon:

“Chosen for what? I didn’ t ask for prophecy.”

Vira: *(rises, voice low but firm)*

“Scriptures are not invitations. They are inevitabilities.”

Kairon: *(defiant)*

“I don’ t believe fate is fixed.”

Vira: *(smiles faintly)*

“Then why did you follow the glyphs straight to me?”

Scene 4 - Rooftop Return (Final Scene)

Characters: Kairon (M), Echo (F)

[CAMERA: Full circle — back on rooftop. Night is now stormy. Distant lightning flickers.]

Kairon:

“This... isn’ t just scripture. It’ s a warning. Or a countdown.”

Echo:

“Then what is your next move?”

Kairon: *(slowly pulls out old pendant with same glyph)*

“We find the Spire of Brahm. Whatever this is — it started long before us.”

Echo: *(tone shifts subtly)*

“Shall I initiate Protocol Veda-One?”

Kairon: *(nods, solemn)*

“Do it. And Echo... stay with me this time.”
